

Focus the Nation Talking Points

Focus the Nation is a daylong educational initiative on Global Warming Solutions for America on January 31st, 2008.

It is a nationwide event, taking place at over 1000 college campuses with over 1000 speakers and a million students.

There will be a local event here at Cal Poly with the goal of attracting as many students as possible.

The Cal Poly Academic Senate, Associated Students Incorporated and the President's Office have endorsed focus the Nation.

The day is broken down into 1-hour workshops and panel discussions that relate to every aspect of our society.

- o The Science of Global Warming
- o Technical Solutions:
 - Engineering
 - Architecture
 - Agriculture
- o Business and Economic Solutions
- o Philosophy and Religion
- o Education
- o Cal Poly's Role in Climate Solutions
- o Government and Policy Solutions

How Faculty Can Get Involved:

- o Join our organizing committee
- o Make a presentation or participate in a panel discussion
- o Devote classes on January 31st to global warming related topics, or attend Focus the Nation events as a class activity
- o Encourage students to attend or attend yourself
