

# Focus Cal Poly

A Polytechnic Approach to Climate Change

On January 31st, 2008, the Empower Poly Coalition will host "Focus the Nation: Global Warming Solutions for America" on the Cal Poly campus. Focus the Nation is an educational initiative that will be taking place simultaneously at over 1,000 universities in the United States. In conjunction with Focus the Nation, we are planning a special dinner called "Focus Cal Poly: A Polytechnic Approach to Climate Change." The dinner will provide a space for Administrative, Faculty, Facilities and student stakeholders to have a candid discussion about the integration of climate change solutions into Cal Poly operations, facilities and curricula. We are asking for \$500 from each of the colleges to make this banquet a success and to make each college a piece of this discussion. With your support, we invite you to join student leaders in this important conversation.

- The Empower Poly Coalition

**Sponsoring Organization:**

Focus the Nation Planning Committee,  
Empower Poly Coalition

**Contact:**

Eric Veium, Banquet Coordinator  
eveium@gmail.com  
(805) 835-3669

**Where:**

Sandwich Factory, Cal Poly
